Hello All,

We have an exciting month coming up with the VAPS trip on May 21-22. Held on Philip Island this year, we will be able to view the amazing winning entries as well as have many photographic opportunities on the Island. The VAPS weekend is usually a great event.

As a quick reminder, we ask everyone to pack away their chair at the end of the night and make sure all dishes are washed and put away. Many hands make light work and all that.

Keep snapping,
Paula

How to Photograph...Smoke

With Winter closing in and keeping us indoors, now is a good time for some experimentation. Smoke can be an elusive subject, but well worth pursuing. Here are a few tips and a tutorial link below to get you started.

Incense is a great source of continuous smoke - just make sure the room is ventilated and you have somewhere to catch the ash. A dark, non-reflective background suits this subject best. In camera you will need a fast shutter speed, small aperture and a low ISO setting. (The smoke will show up very grainy on a higher ISO) To compensate you will also need good lighting to show up

the smoke. Once you are ready to shoot, close doors to reduce any draft that might disperse the smoke too quickly and experiment away!

Member of the month – Anna Small

Anna first heard about the club a few years ago, but finally came to a meeting last year after seeing the stall at the Sydney Road Street Festival. Anna is now an avid club member. Anna's interest in photography has grown since having children. Her favourite genre is portraits, especially of children. Anna also enjoys travel photography especially in the US where she lived for 6 months.

Anna's favourite photographer is Nicholas Nixon who is famous for his 'The brown Sisters' series. Nixon took a single portrait of his wife and her three sisters annually over the last 36 years. The images portray their aging and changing relationships to each other.

Photographer of the Month - **Eddie Adams – War**

Adams was an American photojournalist widely known for his images of the Korean war. Adams served in the United States Marine Corps during the Korean War as a combat photographer. He has received national and international praise for his work. It was while covering the Vietnam War for the Associated Press that he took his best-known photograph – the picture of police chief General Nguyễn Ngọc Loan executing a Vietcong prisoner in 1968. He is the subject of a 2009 documentary feature, *'An Unlikely Weapon'*, directed by Susan Morgan Cooper and narrated by Kiefer Sutherland.

Quote of the month

'Most people try to include too much in the picture. If you are photographing a child playing on the lawn, photograph the child, not the trees, the house, and everything else in sight. Photography is really a simple statement and the clearer it is the better.'
