

MORELAND CAMERA CLUB

2019

Beginners Photography Course

Your camera and how to use it

4 sessions from mid-April. Course materials provided. Bring your camera and manual.

By teaching you about the basics of photography, your camera, and the mystery of all those dials and knobs, this course aims to take you out of 'AUTO' and put you in control of the creative side of exposure, technique and image capture. The course will also include a brief introduction to using a processing program (demonstrating with Adobe Lightroom Classic CC) to process and enhance your images.

Your course fee includes a year's membership of Moreland Camera Club so that you can continue your learning with the support of a small, friendly and enthusiastic local group. See our website www.morelandcameraclub.org.au and find us on Facebook by searching Moreland Camera Club.
